### REMEMBERING Bell Santillan

Bell thank you for the perfect 13years you gave me, I will forever cherish the memories we had. You were a mighty 4lb chihuahua that no other dog will ever replace. I was your first hello when you were born and your last goodbye when it came time to depart. It breaks my heart you won't be with me physically anymore, you were always there for me through it all from sneaking girls into the house and you barking at them, to me studying for college at 4 am. When my oldest brother passed away you mourned with me and when I started driving you were the only one that wasn't afraid of me behind the wheel lol you saw me at my best and my worse. If my love could keep you alive you would have been eternal but it doesn't work like that. Have fun in doggie heaven, like I promised you in your last hours everything will be fine don't you worry. I love you my sweet girl. - Emanuel ??
