REMEMBERING Bella "Guela"

Bella came into our lives 14 years ago as a lost puppy. We helped look for her family and to see where she came from and nothing. We could not help it, but we fell in love with this little bundle of joy. She became big part of our hearts even though she was so tiny. One of the best things we remember and miss about her is the small bark she had. She would put her whole body into it and sometimes even come off the ground. She lived to be 19, so we are happy to say she lived a wonderful life with us and enjoyed it. We miss you and love you Bella. Love, Mom&Dad
