

Cookie House

April 22, 2025

Thank you so much for taking care of my baby of almost 17 years. She's been a part of me since July of 2008. She was always an old soul because she really didn't play much, but she sure was good at sniffing out mice and stalking and killing them. She had 6 litters of puppies in her early years and she was the best mother I've seen. She liked to go for long walks just because and she would sit in my lap and watch Animal Planet with me. She loved her belly rubs and just sitting outside soaking up the sun. She liked a show called Too Cute. She got along well with the cats I had but all other cats she would chase or fight. She was loved dearly and will be sorely missed.
