### REMEMBERING Emmy

Emmy the gentle giant! She had a body of a tank but a heart bigger than anyone can measure. Emmy was raised with three Chihuahuas so she knew the definition of patience! When Emmy would give those sad puppy eyes you were immediately drawn to scratch her belly. She loved belly rubs and snacks! There isn't a food Emmy would turn down. Her favorite hobby was laying on the sofa or on her big comfy bed before she would destroy them. Her favorite command was a hand shake because she knew there would be a treat to follow. We love you Emmy so much! I will forever keep a special place in my heart for you!!!
