REMEMBERING Luna Star

Luna Star passed away on September 11, 2015. She was born on August 31, 2014, and her life was far too short. She was a breathtaking Melanistic Savannah Cat. Luna had a beautiful, exotic look to her with her large ears and quite possibly, the longest tail I have ever seen. She was a loving and faithful companion. She loved getting pampered and taking walks to show off her brightly colored nails. Luna Star is survived by her loving family. We will never forget you, Luna. Momma will miss you most of all. My sweet, sweet Luna, enjoy Kitty Heaven.
