

Mica Garrett

February 26, 2009 - November 7, 2023

On Tuesday, November 7, 2023 our beloved Mica crossed the rainbow bridge after suffering a massive debilitating stroke. Our hearts are broken and the void of his absence is immeasurable. Adopted on February 26, 2011 from the Shelter2Rescue Coalition at age 2, Mica immediately proved himself to be the sweetest companion a human could ask for. Everyone loved Mica and Mica loved everyone. His beautiful blue merle Catahoula coat was the reason for his name, because of the resemblance to the mica minerals known for their shimmering/iridescent appearance. I will miss most his sensitive eyes always seeking mine for a loving connection or approval; his calm personality and tolerant acceptance of every new critter that came into the family after him - ever patient and never jealous of the attention he had to share; his streaks of pure silliness, goofy sleeping positions, and vocalizations that made us laugh every day; his love of the water and going for “swims” in the pool; even the constant vacuuming of hair and the click of his nails on the wood floor in the middle of night signaling me to get up and let him out. The things that I once thought were burdens literally tug at my heart now that they are gone – yet feeling so blessed to have shared this wonderful creature’s life with ours. Mica leaves behind his humans, Lisa and David, Roxy and Cooper (tuxedo cats), Milo (mackerel tabby), and Baxter, his little old buddy that was his constant side-kick.
