REMEMBERING Mitzi

Mitzi was put to rest on 10/13/2021 thanks to that evil disease that is responsible for taking so many of our fur babies lives degenerative myolopathy. I love and miss you so so much my sweet angel and not a minute go's by I'm not thinking and shedding a tear for you. I will meet you at the rainbow my sweet mitzi girl. Love and miss you so much and this is so hard. Mitzi loved playing ball and befriending all the outside kitties, she had the protective nature and all so had a sweet demeanor and she is so missed. You will be with your sisters to play for now until we meet again at the bridge and be together forever.
