### REMEMBERING Molly Marie

Oh precious Molly, how we miss you. Just 2 1/2 when you came to us in Oct 2006. It was love at first sight. We loved watching you come alive. Getting to sit on the couch & sleep with us. How you would run along the fence around the entire yard & how you had to walk to the end of the driveway every time we went out. You loved your routine. I will miss holding your warm soft body & feel your silky hair. And wrapping you in a hot towel after your bath & giving you a massage. Your sweet smell & your beautiful almond shaped brown eyes looking into mine. I'll miss how you loved to ride in the car & didn't mind having to ride in your car seat. How you loved to roll in the cool green grass & your treats I'll miss holding you when you nap & your gentle spirit. I miss everything about you. Never thought that would be our last trip to the vet & we would come home without you. Daddy & I are heartbroken. You were his early morning girl. Having coffee without you is so painful. We spent your last 2 hours holding & loving on you, crying & telling you how much we loved you, I held you until your last breath. We wanted our faces to be the last ones you saw. No more pain & suffering. You were a magnificent little girl. Forever grateful for the 11 yrs we had you. Sophie is waiting for you. .Mom, Dad, Bella, Snow, Mia, Ava, Sweet Pea, Emmie & Sophie II
