### REMEMBERING Poutty

Poutty was an Arizona kitty by heart but a Texan for life! I got Poutty as a cute little kitten in college. He drove from Arizona to Texas many times and enjoyed the travels. Poutty became my best friend right away and we had a bond like no other. He was gentle, yet playful, loving, yet silly. And he could party like any college student, but his lips are sealed! When company was over he would greet everyone with a "drive by" while they were seated just to say "hello". Whether being thrown in the air on a bed (he always came back for more throws) or being slid in a box on carpet from one end to another he was always the center of attention. He loved a good cuddle in your lap or spooning in bed. Poutty was diagnosed with renal failure 3 1/2 years ago but was maintained with weekly hydrating and TLC. Poutty lived to be 18 1/2 years old and never suffered, he just got to be an old man. And it was just his time to head to those pearly gates. Love you Poutty Cat XOXO
