

S.K.

October 22, 2016 - November 21, 2025

My very deeply missed sugar glider who was born on October 22nd, 2016 who's name is Skull Krusher or S.K. for short was sadly growing ill at the start of November 2025 the night of his passing he crawled underneath my pillow and kept squeaking which he never did and I began to comfort him by taking him out the pillow and petting him and letting him crawl around on me and my bed he passed in his sleep peacefully on my bed next to me to when I woke up (November 21st-22nd) I was heartbroken and in disbelief. His favorite foods were hand fed pumpkin seeds which he would only like hand fed and his desert vitamin jelly supplements and his favorite activities were running on his wheel, cuddling with me, and crawling on me while I walk around.

-From Ayden Sanchez
