REMEMBERING Sir Bulbasaur Perez

I'll never forget the day i met "Bulbasaur". He was in a card board box with all his puppy brother's and sister's. They were all trying to get my attention, but not Bulbasaur. Bulbasaur was sleeping at the bottom of the box with the loudest puppy snores and twitching from dreams. I connected with him immediately as i too like to snore and sleep. As a pup, Bulbasaur was always big! not chubby - only buff and tall. At his heaviest, Bulbasaur weight in at 95lbs. We put him on a vet diet and even then; Bulbs weighted in at 85. The Vet said "I guess he just BIG". We never over fed him, he was just a BIG boxer!! Bulbasaur had a very calm and relaxed personality for the entire 11 years we were with him . Completely, the same personality as me, and BOY did he have a sense of humor. He also got along with everything and everyone! That's how he met his brother "Leroy: the cat. Them two of them were inseparable. Bulbasaur was my best friend, and he was truly loved by our community of friends and family. I couldn't of ask for a better pup, Bulbasaur came into our lives exactly when we needed him. He changed us and taught us how to be more kind and compassionate towards others. We love you Bulbasaur with all our hearts. Have fun running around in doggy heaven. I'll see you again, my boy, and when i do...get ready to dance again with me! We love you, Bulbi!
