

## Tundra Simmans

June 25, 2015 - June 7, 2024

Tundra was rescued from a shelter by Fancy Cats and Dogs Rescue Team in early 2018 at about 3 yrs old. After a few months with his loving foster mom, he was welcomed into his Furever home on December 22nd, 2018. His new mom fell in love with his goofy playful personality and his sky blue eyes. He learned how to have good manners, and how to help take care of his mom when she needed an extra paw. She always said that he rescued her. His goofy antics made everyone laugh. He would throw his toys all around and bounce through the house like a bunny chasing them. Tundra LOVED cookies, and he would very loudly tell you exactly how much he wanted one. He also loved his dad, and his human brother and sister. He especially loved when his sister would share food with him, even when mom would tell her not to. Tundra loved to help with bedtime too, mom would ask him to "Check" and he would dive under his brother and sister's beds and check every nook and cranny to make sure there were no monsters under there. Tundra and his family would eventually start to foster other puppies for rescues and shelters in their area. His mom would call him Grandpa Tundra because he took too the role so well helping to teach the new fosters. He was so full of love for life. The only thing he loved more than anything was his mom. He followed her EVERYWHERE; her own furry shadow. While mom would work he would lay in his bed under her desk and nap all day long. His family has a large, Tundra-shaped hole in their hearts now that he is gone. He is loved and missed beyond measure. Tundra passed away in his mom's arms, with his dad at his

side on Friday, June 7th, 2024.
