REMEMBERING Zippo Texas vom Boehmerwald

Zippo is a Slovensky Cuvac a rare breed here in the USA. He was my first Cuvac that I got after rehoming him in 2015. My words to describe him are "Majestic", "Handsome" and "Magnificent". He was a beautiful example of the Slovensky Cuvac and father of 5 beautiful puppies with his companion Greta. Greta & Zippo were inseparable from the moment we brought Greta in as a puppy. He was an absolute gentleman to her and she had a way in his heart and the ability to get anything she wanted from this handsome boy. They truly were soul mates. Zippo leaves behind Greta and his two sons Amos and Andrew and his faithful people Moms Margie and Linda. He was the beginning of my journey to promote this magnificent rare breed (only 90 here in US) and I was so inspired by his beauty I am now working hard to raise the breed population in the right way as a good breeder. I am president of the CUVAC USA club and will continue to promote them even though many are unaware of the beauty and love they bring. Zippo loved being with Greta his mail import bride. He absolutely loved belly rubs and was always ready to flop over on his back just in case I wanted to give him that belly rub. He had the most beautiful expressions and loved to give kisses to all. I will miss this boy that started it all for me & Moravian Mountain Kennel. He was the King and will always be the king for this kennel. Zippo you brought me so much love and I am so thankful that you came into my life.
